# HE GOT LIQUOR.

Rev. Nicholson's Sensational Sermon of Last Evening.

# HE ASKED A POLICE OFFICER

Where he Could get Liquor on Sanday and was Told he Could Get it in any Saloon-Details of his "Slamming" Trip Dished up to an Interested Congregation-Words of Commendation for the Wheeling Press.

The Rev. E. L. Nicholson, of Bethany College, preached a very interesting ser-mon at the Second Christian church last evening, in the absence of the pastor, Rev. S. G. Naylor. His topic was "My Party or My Christ; the Church or the Saloon-Which?". Rev. Nicholson is an entertaining

speaker, and his discourse was closely followed by the large congregation His sermon was made more impressive by a bottle of liquor which he purchased in a Market street saloon, and which he used to good advantage during his sermon, which was in part as follows:

This is a subject of the greatest lmportance to the people of this nation to-day, for on it depends the future of the United States. It is a subject on which the future of the church rests, and it is for this reason that I, a minister almost unknown in this city, and when all the clergy of the city are silent

on the subject, speak on it to-night.

The city of Wheeling is blessed, not only with manufactories, but blessed with a grand and good people. While we love all this, we love something bet-While ter-the gospel of Jesus Christ-and it is that I intend to preach to-night.

'A preacher once accepted the pastorate of a new church, and on his first Sunday he was met by the elders and requested not to preach against the dance halls, because some members attended these places, and not to mention the theatre for the same reason, and to let the saloons alone because their richest member was the most prominent saloon-keeper in the town. This kept up until they ran down the entire list, when the minister asked: "Well, what am I to preach about?" "Well, preach about the Jews, for I don't see a Jew in the house." That is just what the ministers of this city are doing to-day, preaching about the Jews. They are afraid to speak their minds, for fear they will be asked for their resignation.

"While Wheeling is a great town in many respects, it is not what it ought to be. I have been in the slums and all over the principal cities of the east and one thing I can say is that the press of Wheeling is cleaner and more upright than many of the largest cities of the world. While Wheeling is a odel city in many respects it is the model city of hell on earth. Why is it that all of the saloons in Wheeling are open to-day? Why is is that the police of Wheeling are upholding this wlessness? I met a policeman this afternoon on Market street, and I said to him: "Can you tell me where I can get some liquor to-day?" He said: get some liquor to-day?" He said: "Why, yes; you can get it in any saloon in town. This is the greatest town on earth. You can get whiskey here at any time." I walked into the nearest saloon to which he directed me, and I purchased the bottle of liquor, and paid twenty cents for it. The bar was crowded with men of various ages, and during the seven minutes I was talking to that policeman I counted between twenty-five and thirty young men between the ages of eighteen and thirty coming out of that saloon door.

"I have been closely watching the sans of this city for some time, and I find that they are in complete posses sion of the slot machines, which rob the people of not less than sixty per cent of the money they put into them. Now, brethren, if you want me to prove these things, I can do it. I have seen policemen going into these places at all hours of the day, and firemen sneaking in the back doors and coming out with a bucket of beer and taking it to the fire houses. Why is this? Simply be-cuse the citizens are not doing their we more respect for a saloon-keeper than I have for the man who says the business is all wrong, and then votes to legalize it. If all the members of all the churches would cast their ballots against this abominable traffic, it would be wiped out of exist-But who's to blame for all this? Why the man who thinks more of his party than he does of his Christ.

"A member of a Wheeling church said to me the other day that the saloon was a necessary evil, the brothel a necessary evil the gambling den a necessary evil I thank God, brethren, that that man was not a member of this church. When we reach the point where we can say: 'I love my Christ better than my party,' then we will be worthy of the name of

He then went into statistics, and told how many persons either died within a year or were sent to the penilentiary, and in conclusion he asked:

"And now, brethren, let me ask: What are you going to do at your next municipal election? How will you vote? Shall it be 'My Party or My Christ; the Church or the Saloon; Which?"

Just as he had seated himself on the trapers and shouted to the men holding the guy ropes. "Everybody let go." It was discovered that the mouth of the balloon was smouldering. It was too into to halt, however, and the huge hag shot skyward. The draught fanned the spark into a blaze and the crowd were horrified to see a tongue of flame run along the canvax shooting upward toward the top. The shouts of the crowd warned the serundar af his danger, and, though the balloon was still swaying violently, he climbed upward and Joosened the parachute. When this was done be was half a mile from the

earth and the balloon, now a mass of filmes had begun to descend toppling back and forth. McCabe grasped the partly unfolded parachute and leaped into space. A shower of sparks followed him, scorching the parachute and setting it afire in places. The parachute plunged into the river and McCabe was rescued. He was badly frightened and slightly scorched.

#### TWO POLICEMEN KILLED

At Denver, by a Recruit Belonging to the Thirty-fourth Volunteer Infantry-Murderer Still at Large.

DENVER, Colo., August IL-Two po-lice officers were killed here at o'clock this morning by a recruit be-longing to Company L., Thirty-fourth volunteer infantry, now stationed at Fort Logan. Three soldiers had been raising a disturbance in Louis Klipful's saloon, at the corner of Market and Twentieth streets, during the night and Twentieth streets, during the night and Officer Tom Clifford was notified of their actions, and asked to keep his eye upon them. He followed them for an hour or so, and came upon the men at the corner of Blake and Twentieth streets. He was about to accost the soldiers, when one of them turned on him, and plazing the murrie of a revol-ver to his breast, sent a builet through his heart. Clifford died almost imme-diately. All three of the soldiers then started

to run, but two were overtaken and captured. The one that did the shooting, however, continued running, with Officer W. E. Griffith on a bicycle, in pursuit. The fieeing man dodged through alleys and open lots for several blocks, Griffith keeping out on the streets. On Sixteenth street the officer saw the man making for a viaduct. He shot at him twice, the soldier returning the fire, mortally wounding Griffith. He died a few minutes later, while being conveyed in an ambulance to the station. The entire police and detective forces of the city were sent out after the man, and the country for miles around has been patrolled to-day, without yielding any trace of the double murderer, except that a man answering his description was seen on Fifteenth street a few minutes after Griffith was shot. His two companions, who are now in the city jail, deny any knowledge of the murder, but from other recruits who saw the three together during Saturday evening, it was learned that the mame of the man who did the killings was Wellington C. Liewellyn, and that he came from Globe, Arizona. A reward has been offered for him, dead or alive. There was talk of lynching, should he be taken alive, but this seems to have died out.

# THE STATHERS INQUIRY.

More Progress Made at Saturday's Session Than Any Day Since the Investigation Began - Dr. Stathers'

Special Dispatch to the Intellig WESTON, W. Va., Aug. 11.-The first witness examined in the Stathers investigation yesterday morning was Fillmore Howell, a colored hotel porter at the Ward house, Grafton. His testimony related to the alleged going away of Dr. Stathers in May, 1898, with one Miss Hattie Green, an employe, on trip to St. Louis. The witness stated that Miss Green came to the hotel where he worked on May 5, 1995, and that he took her up to Pruntytown to visit her little brother, a Reform School inmate, and that she remained there over night, returning the next day. Witness carried a note from her when she returned to someone at the Central

and identified by the witness. He was present at the station on the night of the 6th, and saw her purchase a mileage book with name of Maude Stathers. He and the ticket agent afterward discussed the case and spoke of her using one name at the hotel on the register and another at the ticket office. He said a man had come down from the hospital three or four weeks afterward to get an affidavit from him that Miss Green had gone east and not west, and offered him a position at \$25 a month if he could get proper endorsements from his home people. He identified C. L. Topping as the man, and Mr. Topping was placed on the stand and corroborated Howell's statement, stating that he had gone at Stathers' instance to get the affidavit. Topping is the hospital clerk.

Thomas L. Henderson, assistant ticket agent at Grafton, was the next witness, and Dr. Stathers and Miss Green having been brought in and asked to stand up before him, he identified both as having been in the walting room and purchased a Pullman ticket sold by him that night.

Miss Green, who gave her name as Miss Maude Stathers and so signed it on the ticket purchased from witness, an interchangeable mileage book saying she wanted to go to St. Louis. While in the room the two paid no attention to each other, but witness saw them go to the sleeper logether. He exhibited before the board his office records of entires made on the day of sale, showing that interchangeable mileage book saying she wanted to go to St. Louis. While in the room the two paid no attention to each other, but witness saw them go to the sleeper logether. He exhibited before the board his office records of entires made on the day of sale, showing that interchangeable mileage book no. 525 was sold May 4, 188, to Maude Stathers.

On cross-examination he admitted that he might possibly be mistaken as to the two being the same people, but he protested that he had no doubt in his own mind of their identity.

Clerk Topping was recalled and stated that he saw produced the continuence of the power a

dian fame.

Dr. Lorilla F. Bullard, the lady physician, was called and testified as to having been called by Dr. Stathers at one time to help treat Miss Green when she had attempted swicide by taking an ounce of brosno-chloral. She knew no reason for this attempt. The witness had heard about the building various rumors of intimacy between Dr. Stathers and Miss Green. She corroborated Dr. Perry in his statements that while a right watch Miss Green made her reports in the superintendent's private office, while other reports were made in the general office, and she was seen quite frequently with the doctorso often that it had excited comment. David Sayder, who was for two years a director of the institution, stated that at one time about a year ago Dr. Stathers had pointed out to him one of the employes of the institution whom he said was loose, and told Sayder to form her acquaintance. The girl afterward was discharged by Dr. Stathers be employes to the little said was loose, and told Sayder to form her acquaintance. cause she was said to be in a delicate condition.

On cross-examination witness said he believed the institution to be managed with commendable economy, cleanliness and good care of patients.

More was accomplished yesterday than in any other one day since the investigation began. As the Intelligencer has all along advised in its editorial columns, the public should be slow to decide and await all the facts obtainable before determining the guilt of anyone. Just now Dr. Stathers is beneath a great weight of evidence, but a few days of taking testimony of his witnesses may again put him on top.

NEGRO PRINCE NOT MARRIEO. London Clergyman Refuses to Marry

Him to a White Woman. LONDON, August 12.-It was reported to-day that Prince Loben, who is alleged to be the son of the late Lobengula, king of Matabeles, had been married at the registary office by special license to Florence Kate Jewett, a Jewess, who formerly liver in Cape Colony, where she amassed considerable money. The marriage was to have been performed on Thursday at St. Mathias's church, Earl's court, but was postponed, it was said, until to-day ow-ing to the refusal of the curate to per-

Inquiries show that no license for them to marry to-day in the diocese of London had been issued. It was also learned that though the ill-assorted pair had for hours driven in a carriage to and from churches, clergymen's residences and the registry office, they were refused everywhere. The woman now declares that she and Loben have been married for three weeks.

The South African Exhibition directorate, where Loben was one of the exhibits, had booked a single steerage passage for him to Cape Town, where he was formerly a kitchen boy, and he was to have salled to-morrow, but he has escaped from the exhibition. ENSIGN M'FARLAND

Is Doing Great Work Along the Coast of Panay.
WASHINGTON, Aug. 11.—Following

is the text of Commander Sperry's report reciting the exploits of Ensign H. G. MacFarland, in the vicinity of Ma-

port reciting the exploits of Ensign H.
G. MacFarland, in the vicinity of Manilla:

U. S. S. YORKTOWN,
H.OILO, P. L. June 12.

Sir—The gunboat Samar, Ensign H.
G. MacFarland, U. S. N., commanding,
which sailed from this port on the 3d
instant, returned on the 3th, requiring
coal, for which she appears to carry
about six days' supply for active cruising with frequent chasing.

The Samar passed along the west
coast of Panay three times, visited Catalog, on the island of Tablas, once,
Rombion three times, the north coast
of Sibuyan once, Capison Panay twice,
passed along the north coast of Panay
and returned to Holio from the north,
having made a complete circuit of Panay close along shore.

Enclosed herewith is a copy of the
commanding officer's report of the capture of thirteen vessels, all but one of
which were destroyed. However active
the trade may have been on the west
coast of Panay formerly, I am of the
opinion that the insurgents are mainly
occupied in throwing troops into Nesros and Levte from southwest Luzon
and Panay, and General Hughes is of
the same opinion.

With the intention of breaking up
this traffic the Samar has been sent out
with the cruising orders communicated
to you in my cipher telegram of the 11th
inst. The manner in which Ensign MacFariand exercises his command is extremely satisfactory. He is ready, energetic and makes no requests except
for coal and water.

It is very desirable the springs telestrapked for should be supplied at once
for the Samar's Nordenfeidts. But in
the meantime EnsignMac-Fariand has
made what he reports as satisfactory
temporary arrangements, and he appears to have a genius for making
things work.

The men above lowered a rope with a running noose and succeeded in getting this around the foot of each cousin and drawing their bodies out. Foul gas had killed both. BIG CUT IN WAGES

#### In Structural Department of Cambria Steel Company.

JOHNSTOWN, Pa., August 12.—What is probably the record for a big reduc-

on of wages goes into effect in the structural department of the Cam Steel Company to-morrow morning The reduction ranges between 79 and 80 per cent. The straighteners of the large beams will have their wages cut to about \$3, while the hold-ups will be paid on a scale that will average them about \$1 50 per day. The workmen deabout \$1.50 per day. The workmen de-clare that straighteners had been mak-ing an average of \$15 or \$15 a day shd that the hold-ups averaged \$5 to \$7 for their work They claim that they were not over-paid even at that rate, for the beams are very heavy and the work its so severe on the men that they can endure it for only a few years. A general strike of the straighteners and hold-ups is looked for.
